

How to work with us

A guide for primary schools and MATs

We are very flexible in the way we work, allowing you to choose the services and support that is right for the needs of your children, your staff and your school at any particular time.

You can work with us through:

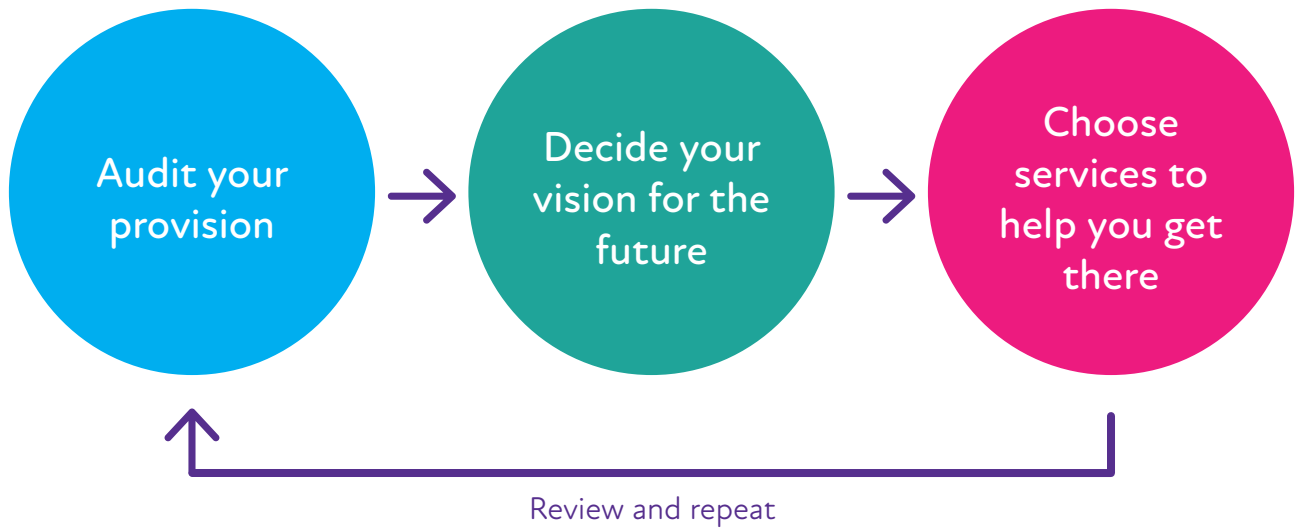

Who can access our services:

When you are choosing a service where one of our team will visit your school to deliver directly to your children or staff, we have to make it financially viable for our team to travel to you. Our office is based at Chilton Academy, DL17 0PT and we can travel within 15 miles of that venue without any additional fees. Should your school be outside of that area then we would share a conversation with you around how we can make it work. This may be ensuring that our staff are on site for a particular length of time or we add a small surcharge per additional mile.

Our PE Apprenticeship Programme can cover schools across the North East of England.

We always advise that if you feel our services can bring value to your school and help you to achieve your goals to give us a call and share a conversation.

How to choose:

How we can help you choose:

You can use our SMILES analogy to review your PESSPA offer.

- S** Start by moving well
- M** Move every day
- I** Inspired to be my best self
- L** Learn how to look after me
- E** Enjoy being physically active
- S** See a healthy active future

We have categorised our services with which elements of the SMILES analogy each service makes an impact on. If you want to make an impact in 'Move every day', take a look at the services marked with 'M' in our service brochure.

A PE Health Check is a great way for us to audit your provision and give you feedback and suggestions for future areas of development.

Request a 1-2-1 with a member of our team to talk through your vision and our services.

MEMBERSHIP BENEFITS

- **Unlimited** access to our central CPD programme:- Face to face CPD courses- Virtual CPD
- **All staff** have access to the exclusive membership area on our website:- Bank of PE, School Sport and Physical Activity Resources- Forum for networking and problem solving- Recorded Top Tip video bank

Being part of our **Competition and Events** programme

We run a localised programme of School Sport Competitions and Festivals (in addition to the School Games). Schools can have unlimited access to these events through purchasing our "Competition and Events SLA".

COMPETITION AND EVENTS

£2,100

Choosing us as your **PE Apprentice** Training Provider

We are an OFSTED rated **OUTSTANDING** training provider and can be your training provider of choice should you wish to employ an Apprentice to drive participation in physical activity across your school.

Asking us to be part of the **Central Service of your MAT**

We can build a bespoke service to support your MAT to meet its vision for PE, School Sport and Physical Activity and its desired impact on your pupils. We can also support you to create a collective vision should that be something you would like external facilitation or support with. We can help to ensure consistency across your Multi Academy Trust, as well as, meeting the specific development needs of individual schools.

Asking us to be part of **grant applications/projects**

We love a new project! If you have the opportunity to apply for funding for a project that includes physical activity, we can support you with designing and implementing the programme, as well as, potentially writing the grant application.

Buying **individual services**

If you only wish to purchase one or two of our services, then that is also fine with us! We are here to meet your needs and support you however we can. Just get in touch with your requests.
